At this time, we are unable to determine if our program meets the state licensure requirements for any state other than Minnesota. Minnesota is unique in its licensing system for peace officers. Most other states retain some form of academy training followed by certification of the individual officer. Minnesota requires those aspiring to work in law enforcement to complete an educational program and pass a state board exam. Licensing itself only occurs when eligible candidates are appointed to a peace officer position and certain selection standards are met. Licensing is a cooperative process between the POST Board, the hiring agency and the candidate (https://dps.mn.gov/entity/post/licensing/Pages/default.aspx). In some cases state agencies allow people with peace officer experience from another state to meet licensure requirements by taking a reciprocity exam. You will need to contact the appropriate licensing agency in the state you are interested in being licensed in order to determine if there are reciprocity exams available. |
