PROGRAM DESCRIPTION

The Business Operations and Management program will give students the skills and knowledge to be proficient in the latest business software applications, business concepts and operations. Students will learn presentation, problem-solving, customer service, and team-building skills that are vital in today's workplace.

During the program students receive hands-on training in keyboarding skills, and the most current version of the Microsoft applications: Word, Excel, PowerPoint, and Access, as well as QuickBooks accounting software. This program is fully online.

PROGRAM LEARNING OUTCOMES

Upon completion of the Business Operations and Management Diploma, the graduate will be able to:

1. Understand ethical, legal, and socially responsible business practices
2. Utilize word processing, spreadsheet, database, and presentation design software for business document and report design
3. Develop interpersonal leadership and customer relations skills
4. Understand basic accounting principles and computerized accounting software

EMPLOYMENT OPPORTUNITIES

Graduates of the Business Operations & Management program can find employment in business of all types and sizes, non-profit organizations, government agencies, insurance agencies, banks, manufacturing firms, educational institutions, healthcare, and more.
