Program Description

The Coaching Certificate program prepares students to be a head varsity coach in the Minnesota public school system and meets Minnesota State High School League requirements per Minnesota Statute Section 122A.33 Subdivision 1 License and Degree Exemption for Head Coach. While this coaching certification may or may not be a requirement for head coaching in other states it is strongly recommended. This certification complements any degree, especially those within the field of education. Courses in coaching theory, communication, first aid, injury care, and weight training/conditioning are all included.

Occupational Titles

Coach

Program Learning Outcomes

Graduates of this program will:

1. Demonstrate fundamental skills in CPR and First Aid,
2. Demonstrate basic techniques for aerobic and anaerobic sports,
3. Develop an individual philosophy of coaching,
4. Demonstrate methods for prevention and care for athletic injuries,
5. Develop knowledge of a specific sport or sports from a coaching perspective, and
6. Identify and describe fundamental psychological theories that could be applied to sports.
