

Liberal Arts and Sciences
Associate of Arts Degree (60 credits)

The Associate of Arts (AA) is a 60 college-level credit degree designed for students who plan to transfer to four-year institutions. Students who complete the AA degree will also have met the Minnesota Transfer Curriculum (MnTC) requirements. The MnTC is complete when the specific requirements for each Goal Area are met and a minimum of 40 credits from within the MnTC course list is earned. A 2.00 GPA is required for both the MnTC and AA degree. A student may complete the Minnesota Transfer Curriculum without completing the Associate of Arts degree.

Courses that are part of two MnTC Goal Areas list the second Goal Area in parenthesis. A single course can count toward two Goal Areas, but the course credits only count once toward the 40 MnTC credits required.
