Practical Nursing Diploma   NAME _____

Student Pre-Program Requirements Planner – Upload to 8850 PN Portal for use in application status

- Pre-program requirements do NOT have to be completed prior to underline(applying) to the program. A plan for completion prior to the July 31 needs to be in place (indicate when you plan to take courses). Pre-program courses must be complete prior to entrance into core PRNU courses with a GPA of **2.5** or greater. GPA is calculated from 8 credits of Anatomy & Physiology, 3 credits of lifespan psychology and 1 credit of medical terminology.
- Completely fill out this planner. If you have not completed a requirement prior to application, note when and where you have made plans to be successful in your completion.
- This planner does not replace your official transcripts. This form will be informally used to determine readiness to enter the Practical Nursing Program.

Course		Credits/ Grade	When / Where or In Progress	College use
BIOL 2371 Part of GPA	**Anatomy and Physiology I – 4 credits**			
BIOL 2372 Part of GPA	**Anatomy and Physiology II – 4 credits**
