

Heating & Cooling Technician

Additional Tool Requirements (Student Purchase)

In addition to the trade-specific tool kit students get from the campus bookstore, *students are required to have and responsible for acquiring the hand tools listed below:*

- (1) pair **leather** work gloves – these are to prevent cuts when working with sheet metal and metal gas piping and to protect hands when moving equipment
- (1) tool box or tool bag – large enough to carry most student tools (excluding manifold gauge set & hoses)
- (1) slip-joint pliers (aka “channel locks”) – 8” or 10” in length

- (1) adjustable wrench (aka “crescent wrench”) – 6” or 8” in length

- (1) side-cutting pliers – 6” or 8” in length

(more tools on back of this page)

- combination wrench set (SAE) – should contain sizes $\frac{1}{4}$ " to $\frac{3}{4}$ " at a minimum

- (1) hex-head wrench set (aka “Allen wrenches”) – SAE

- (1) long-nose pliers (aka “needle-nose pliers”) – 6” or 8” in length

- (1) ball peen hammer (12 or 16 oz)
