Minnesota North College	38-05-2022: Peace Officer/Public Safety Transfer Pathway	Hibbing	AS	Land	Board of Peace Officer Standards and Training (POST)	Minnesota		Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, District of Columbia	Our law enforcement program is intended to prepare students to successfully pass the Minnesota Peace Officer Standards and Training (POST) board examination. At this time, we are unable to determine if our program meets the state licensure requirements for any state other than Minnesota. Minnesota is unique in its licensing system for peace officers. Most other states retain some form of academy training followed by certification of the individual officer. Minnesota requires those aspiring to work in law enforcement to complete an educational program and pass a state board exam. Licensing itself only occurs when eligible candidates are appointed to a peace officer position and certain selection standards are met. Licensing is a cooperative process between the POST board, the hiring agency and the candidate (https://dps.mn.gov/entby/post/licensing/Pages/default.aspx). In some cases state agencies allow people with peace officer experience from another state to meet licensure requirements by taking a reciprocity exam. You will need to contact the appropriate licensing agency in the state you are interested in being licensed in order to determine if there are reciprocity exams available.

Minnesota requires this minimum. States that require the same training hours and practical/clinical hours we determined our programs met the requirements for licensure in those states. If a state required more our programs did not meet the requirements. Additional requirements such as state-specific examinations, background checks, fees, additional training, experience and coursework, etc. may apply. Nevada and New Mexico are missing the number of required practical/clinical hours so a determination cannot be made on whether our program meets the licensure requirements in these two states. https://phinational.org/advocacy/nurse-side-training-requirements-state-2016/
